PATTERN

Please note that this is a crochet pattern, but not a toy.

Clarification of the term

Abbreviations:

sc = single crochet

inc = increase

Mr = magic ring

dec = decrease

hdc = half double crochet

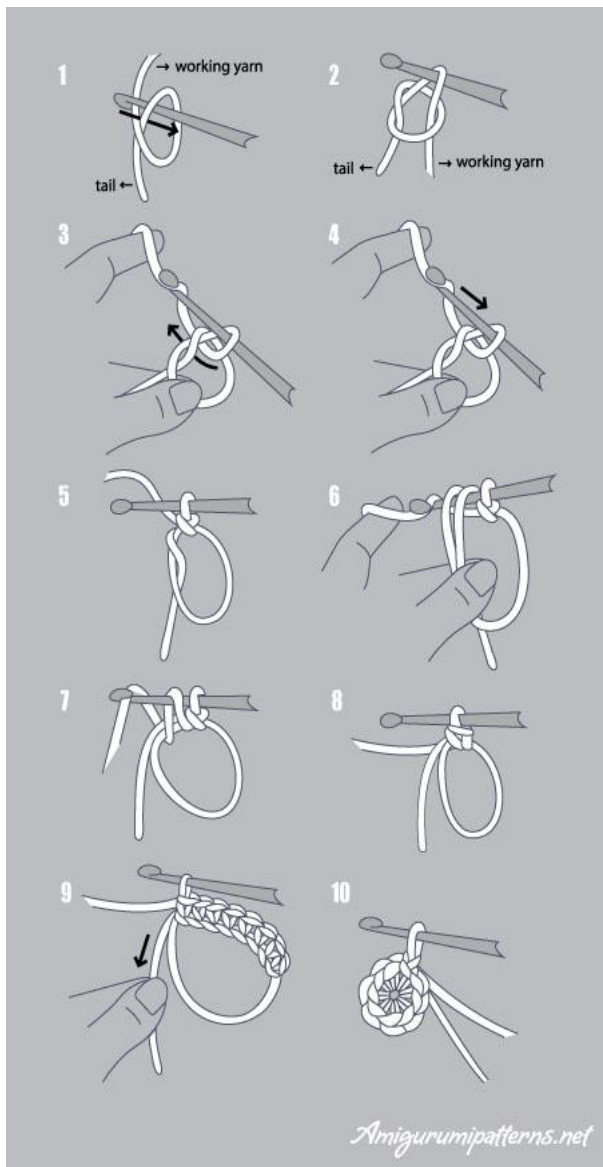

dc = double crochet

ch = chain

A **magic ring** is the ideal way to start crocheting in the round. You start crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb, and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again and draw it through both loops on your hook (7). You have now completed your first single crochet (8). Continue to crochet until you have the required number of stitches as mentioned in the pattern. Now grab the yarn tail and pull to draw the centre of the ring tightly closed (9). You can now begin your second round by crocheting into the first stitch of the first round. You can use a stitch marker to remember where you started.

ASSEMBLY:

1 Connect the body and head. Make sure the back is curved and the toy is full tight enough so that the head does not swing.

2 Sew on the legs using the button fastening. Attach a thread of color feet a button to the outer side of the right leg, bring the ends of the thread through the body to the outer side of the left foot. Attach the button, return to the right leg. Repeat 2 times.

3 Withdraw the thread somewhere behind, tie a knot, hide the thread inside the body.

4 Attach the hands in the same way, only the buttons inside. When sewing step back a row from the junction of the head and body, for free movement of the hands. Sew up holes in the hands

5 Attach the thumb. Cut the wire, bend the end. Bent end insert into your finger, the other into your palm. Sew a finger.

6 Attach the mouth. The upper part of the middle of the mouth is 21 rows from the crown. Side – on the 23rd row. The lower part is on the 3rd row from the junction of the head and body.

7 Attach the eyes and eyebrows. Top of eyes – 10 row from the crown. Eyebrows: Outside – 14th row, inner – 11 row.

8 Attach the hair in the middle of the crown.

9 Sew on the top of the diaper. Make sure it covers 1 white and 1 green row.
